## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. The following is an examiner's statement of reasons for allowance:

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Claims 1-4 are allowed over prior art of record.

Independent claim 1 is allowed over prior art of record because all of the cited references of record, viewed as the closest prior art and considered alone or in combination, fail to suggest or fairly teach an optical disc determination circuit including an input terminal to receive a reflected light signals, a clamp circuit that clamps the bottom level of the light signals, a comparator that detects the reflection signal from the bottom surface of the optical disc and also the light signal reflected by the information recording layer of the disc, and a calculation circuit that calculates the distance between the surface of the disc and the recording layer based on the light signals.

Claims 2-4 are allowed as being dependent upon aforementioned independent claim 1.

### ***Response to Arguments***

2. Applicant's newly proposed arguments, see page 3 of the Appeal Brief, filed 5/16/2006, with respect claim 1 have been fully considered and are persuasive. The rejection of claim 1 is withdrawn.
